Need a Little Help with Your Site? Hire a Corvid Web Developer

HIDE TICKET

Here at Wix we strive to support you with this community forum, API references, articles, videos and code examples. But sometimes you might need a little extra help to get your site exactly the way you want it.

Hire a developer from the Wix Arena, an online marketplace with top Corvid web developers from around the world. Submit your project details here, and we'll find the right professional for you.

Wix Code Forum - Guidelines for posting a question

HIDE TICKET

Hi Wix Code community, me again :)

Over the past few weeks, we've discussed ways to make forum questions more accurate, professional and easy to answer to.

About Ticket Manager

Effective customer
support management
system

Designed for the
customer support
technician

Benefits

- Intuitive controls
- Clean interface
- Search- find what you're looking for
- Specified Filters- displays only what you want to see
- Pre-formatted mail for ticket response in one click.
- Works on desktop and mobile browsers

Technology

- Frontend Using React for interactivity and responsivity.
- Backend using Node.JS
